

## Graphic Designer for environmental sustainability project

KDE e.V. is looking for **graphic design** support for the KDE Eco project “Sustainable Software For Sustainable Hardware”.

The goals of the materials is to intrigue and motivate more people to use FOSS to combat the rise of electronic waste and to avoid unnecessary CO2 emissions in the production of replacement digital devices.

### 1 About KDE and KDE Eco

[KDE](#) is an international community dedicated to developing Free and Open Source Software (FOSS) for end users. Contributions are made by thousands of talented volunteer contributors (developers, artists, marketers, translators, documentation writers, etc.) from all over the world. [KDE e.V.](#) is the legal organization behind KDE that represents and supports the community, which includes KDE Eco.

The overarching aim of [KDE Eco](#) is to strengthen sustainability as part of Free Software. This includes developing tools to improve energy efficiency in FOSS development, supporting software eco-certification within FOSS communities, and promoting sustainability solutions related to software among the general public.

“Sustainable Software For Sustainable Hardware” (German: *Nachhaltige Software für Nachhaltige Hardware*, or NH4NS) is a new KDE Eco campaign to raise awareness about e-waste and the critical role of software for the long-term, efficient use of hardware.

### 2 Briefing

You will be responsible for designing materials such as leaflets, logos, infographics, etc. for online and offline campaigns as part of the project. Therefore, you will be working together with the team of the organization. The content for the materials will be provided by KDE Eco.

### 3 Qualifications and skills

- Deep knowledge of print design, logo design, infographics, etc. as well as professional-grade graphic design tools (e.g., GIMP, Inkscape)
- Ability to work independently within the frame of the project
- Fluent in English (verbal and written)

### 4 What we offer to you:

- The opportunity to do pioneering work around sustainable software
- Working in an open and friendly community that puts its heart into Free Software

### 5 Job Details

- Type: project based / freelance
- Location: Remote
- Paid by “Dienstvertrag” (self-employed)

### 6 How to apply

Please send your application, including your **availability** and **hourly rate**, by email to [nicole.teale@kde.org](mailto:nicole.teale@kde.org) with “Graphic designer for KDE Eco“ in the subject.

Do not hesitate to contact us at the same address if you have any questions.
